U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

The U.S. Army Engineering and Support Center, Huntsville Information Technology Services, General Information Technology (GEN-IT) Program delivers value through Information Technology (IT) acquisition, project management and financial management excellence. GEN-IT uses a product delivery team comprising project management, financial, contracting and legal counsel to ensure requirements are met on time, within budget and at reduced risk, resulting in best value solutions. Customized services are developed to meet a variety of customer IT requirements. Agencies choose the services and the level of support needed for each requirement:

- Requirements Analysis
- Market Research
- Acquisition Planning and Acquisition Strategy Development
- Development of all acquisition documentation
- Administering the Contract and/or Task Order(s)
- Project Management/COR
- Manage Project Schedule and Review Deliverables
- Monitor Vendor Performance and Resolve Disputes
- Manage Award Fee Evaluation Boards
- Funds Management
- Legal Support
- Contract Close-out

Solutions may include the use of the Army Computer Hardware Enterprise Software and Solutions (CHES) contract vehicle, Governmentwide Acquisition Contracts (GWACs), Multiple Award Contracts, U.S. General Services Administration (GSA) Schedules, or Single award or Agency-Specific Contracts. This suite of solutions provides customer access to thousands of commercial partners and unlimited variety in information technology solutions. Additionally, GEN-IT provides Integrated services that combine services, software, and hardware into a single solution

GEN-IT's focus on financial management ensures customer agency's funds will be spent in accordance with appropriation, authorization and bona fide need. GEN-IT also ensures compliance with all applicable Federal Acquisition Regulations (FAR), including agency specific acquisition and financial management policies.
