EERA

SCOPE OVERVIEW

EERA SCOPE OVERVIEW

The EERA MATOC allows CEHNC to continue the execution of missions assignments in accordance with:

Engineering Regulation 10-1-22 (Section 7 and Appendix A), Organization and Functions CEHNC, dated 27 November 2018. In accordance with ER 10-1-22 Paragraph 7 ("The Center is authorized to contract for assigned programs and for support to other USACE elements."), Paragraph 7b ("Continuous mission assignments" for CEHNC), Appendix A, Paragraph 1 (e) (Environmental and Munitions continuing mission assignments) and Appendix D, Subparagraph (15) (CEHNC is one of four designated USACE MMDC's and single designated center for CWM involving military munitions response actions)

USACE Engineering Regulation 1110-1-8153 dated 29 April 2016. In accordance with Paragraph 6a and 6b, the "work performed by USACE involving military munitions responses or actions to address unexploded ordnance (UXO), discarded military munitions (DMM), and munitions constituents (MC), including conventional munitions and/or chemical warfare materiel (CWM), for range clearance operations, readiness support, and support services during construction, dredging and environmental activities…and are performed safely, consistently, and efficiently across the executing programs."

USACE Engineering Regulation 10-1-50 date 30 April 2012. In accordance with Paragraph 6, "The primary mission of the EM CX is to support the Corps headquarters, divisions, districts, laboratories, centers, and other customers in the performance of their military, civil, and work for others environmental missions. The EM CX performs this mission by maintaining state-of-the-art technical expertise and competencies for hazardous waste remediations, radioactive waste remediations, munitions response actions, chemical warfare materials responses, green and sustainable remediation and environmental compliance activities."

EERA SCOPE OVERVIEW

The objective of the EERA MATOC is to provide continued support to munitions and emerging environmental concerns, to include CWM, Conventional Military Munitions, and Aqueous Film Forming Foam (AFFF) to assure public safety and environmentally protective responses.

The scope will require the contractors to have the capability to support multiple Task Orders (TOs) simultaneously at various geographical locations throughout the United States, including Alaska and Hawaii, the U.S. Territories, Outlying areas, as defined by FAR 2.101 and Territorial waters. The U.S. Army Engineering and Support Center (CEHNC) Ordnance and Explosives Directorate (OE) Program coordinates with the appropriate Area of Responsibility USACE District.

SAFETY – *A PRIORITY*

Site Specific Health and Safety Plan/ Accident Prevention Plan

USACE Health and Safety Requirements Manual EM 385-1-1 (most current edition)

USACE Explosives Safety and Health Requirements EM 385-1-97 (most current edition)

Safety Submissions and Site Plans as applicable

Safety and Health Manager (SHM) and Site Safety and Health Officer (SSHO) is required for all projects

EMERGING ENVIRONMENTAL RESPONSE ACQUISITION (EERA)

ACQUISITION OVERVIEW

SOLICITATION W912DY-19-R-0037

Kendra Taylor
Contracting Officer

US Army Corps of Engineers ®

EERA ACQUISITION OVERVIEW

The following are expectations for the EERA acquisition. Until all required acquisition related documents are approved, the expectations below are subject to change.

North American Industry Classification System (NAICS) Code 562910, Environmental Remediation Services
Small Business Size Standard – 750 Employees

Anticipated Capacity - $49 Million

Anticipated Period of Performance
- – Base Period: 1 Year (12 months)
- – Option Periods: 2 (12 months each)

EERA ACQUISITION OVERVIEW

Indefinite Delivery/ Indefinite Quantity (IDIQ) Multiple Award Task Order Contract (MATOC)

No determination has been made if this requirement will be set-aside for small business concerns.

Milestones:
- Issue RFP: **FY20**
- Anticipated Award Date: **FY22**
- Sources Sought : **Posted 07 August 2019** to FBO.gov (closed)
- Special Notice/Sources Sought: Posted **15 October 2019 Responses due 7 November 2019**
- All vendors are invited to submit capabilities statements to assist with market research.
