

Unit Staging Area

General

The Unit Staging Area provides a gravel parking area for tactical vehicles before and after gunnery. It is not intended for long term or unattended parking of tactical vehicles.

Primary Features

The area is sized for the typical number and type of vehicles trained on the range. The area may or may not include security fencing, lightning protection, and lights.

Siting

The Unit Staging area should be near the primary access road to the range and near or adjacent to the Vehicle Instrumentation Dock. It should be within walking distance to the Bivouac area and the After Action Review Building.
