

Communications Infrastructure and Systems Support (CIS²)

Program Manager 256-895-1413

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG[®]

The U.S. Army Engineering and Support Center, Huntsville's Communications Infrastructure and Systems Support (CIS²) team provides quality oversight and technical engineering solutions for facility related communications distribution systems.

Our Team: The CIS² Program utilizes a dedicated, multidiscipline Project Delivery Team (PDT) to provide support for the survey, design, acquisition, installation, testing, and/or maintenance of facility communications distribution systems. Furthermore, the PDT includes subject matter experts in the areas of Project Management, Information Assurance/Cyber Security, Engineering, Contracting, Resource Management, and Legal Counsel. Along with a cadre of Huntsville Center employees, the program also partners with other USACE Divisions and Districts to ensure proper integration of mobile and nonmobile communications distribution systems into facility design, installation, and/or maintenance.

Program Scope: In accordance with the Unified Facilities Criteria (UFC) standards and Telecommunications Distribution methods, the scope of work performed by the team includes telecommunications interior infrastructure planning and design; facility-related cybersecurity systems; telecommunications spaces, pathways, cabling and systems; mass notification systems; uninterrupted power supply systems; and interconnecting components necessary to support the infrastructure of voice, data and video systems. Data center preventive and corrective maintenance. We also provide helpdesk/administrative support services for various organizations.

In today's environment, facility communications distribution systems integration is a non-severable aspect to a complete and usable facility.

Key Customers Include:

- U.S. Army Reserve Command
- U.S. Southern Command
- DoD Education Activity
- Office of the Secretary of Defense
- Yuma Proving Ground Network Enterprise Center
- Joint Communication Support Element
- 81st Army Readiness Division
- 88th Regional Support Command
- National Guard Bureau
- Navy Systems Support Group
- Washington Headquarters Agency
- Defense Intelligence Agency
- The Judge Advocate General's Legal Center and School
- U.S. Marine Corps Forces Reserve
- National Defense University

**Contact CIS² for your program and project management services
in the facility communications distribution systems areas.**
