

Furnishings Program

Program Manager 256-895-7456

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

The U.S. Army Engineering and Support Center, Huntsville Furnishings Program procures barracks and administrative furnishings for various federal agencies worldwide. The Huntsville Center is also designated as the central manager of Furnishings procurement for the Installation Management Command (IMCOM). The program is a full service organization capable of providing project management, interior design, procurement, installation and quality assurance for all federal agencies' furniture needs.

The Furnishings Program's primary mission is to buy furnishings in accordance with customer requirements and to manage the delivery of those items to the new or renovated facility by the beneficial occupancy date (BOD).

Camp Humphries Korea Executive Office

A variety of services for both continental United States and overseas requirements is provided to many federal agencies. For example, for the Assistant Chief of Staff for Installation Management (ACSIM) and IMCOM, services provided by Huntsville Center include assisting in annual budgeting and work plan formulation; preparing and executing the acquisition plan for worldwide procurement of furniture, fixtures and equipment (FF&E); developing and maintaining current minimum quality specifications for all furniture requirements; evaluating and awarding supply and services contracts to vendors offering the best solution to the government; managing the delivery of the contract to coincide with the often dynamic beneficial occupancy date; measuring and evaluating program efficiency and cost effectiveness; serving as the clearing house for end user comments and lessons learned; and recommending or implementing improvements to program management and acquisition strategies. Our team focuses on Administrative, Barracks and Lodging Furnishings.

Distribution A - Approved for Public Release - Unlimited Distribution - September 2016

Our vendors must comply with General Service Administration industry standard specifications and Huntsville Center performance specifications that incorporate the durability our customers require. Huntsville Center durability specifications increase the product life cycle which reduces the cost incurred by the government. Products quoted must have complying lines of furniture to meet the specification provide in the solicitation. Through extensive technical evaluation, Huntsville Center ensures only comparable furniture in terms of quality of materials; end user requirements and overall functionality (critical for facility standard design application) are being considered as the best solution for outfitting the facility.

The Furnishings Program is a success because of its strategic acquisition and planning approach, ability to reduced procurement costs and providing outstanding quality products to our customers. The program has generated a cost savings of over 17% since conception. Our customers are able to fund additional requirements with the cost savings.
